

BASA MEMBERS HANDBOOK

2025

THE GUIDE TO THE BRITISH ADHESIVES & SEALANTS INDUSTRY

CAMIDA[•]

Currently it is a time of many challenges for procurement professionals. Reliably sourcing and securing supply of vital chemicals. It seems there's ever greater pressure, fewer certainties, more hurdles.

But some of the world's best-known companies have a hidden advantage. They don't spend too much time problem solving. If they need something, it's sourced and supplied. Quietly and efficiently. They don't need the headaches of multiple vendors and different standards, it's streamlined. Compliance, paperwork, it's taken care of. They have an advantage.

They have Camida.

Welcome

Welcome to the 2025 edition of the BASA Member's Handbook, where we aim to provide members and other parties with information about the adhesives and sealants industry in the UK and Ireland.

With around 90 member companies, BASA is the business association for the adhesive and sealants industry in the UK and Ireland.

In this Handbook you will find information about each member company and an overview of the work of the association. A comprehensive 'where to buy' Directory for adhesives, sealants, raw materials and ancillary products, Technical Standards, plus useful guidance documents and further valuable information, can be found on our website at www.basa.uk.com.

Together, this handbook and website offers specifiers, users and members of the association virtually everything they need to know about the industry and its products.

In 2024 we posted over 1,200 documents to the members info hub.

The Secretariat, Consultants and Technical Working Groups responded to over **600 issues**;

- EU/FEICA initiated (16.4%)
- BASA (50.8%)
- CPA/Construction (18.6%)
- BSI (12.6%)
- UK Government (1.6%)

Who are BASA

BASA is an unincorporated Trade Association formed in 1983 from the marriage of two long established associations, the British Adhesives Manufacturers Association and the Sealant Manufacturers Conference.

Set up to act as the voice for the industry, BASA supports its members by representing and promoting the industry, offering guidance on technical and compliance issues, organising networking opportunities for members, and providing members with support services.

The Association is managed and run on a day-to-day basis by a Secretariat, who work under contract by a voluntary Council of senior industry representatives appointed from current member Companies under the rules of the BASA Constitution.

BASA is an independent National trade body dedicated solely to the interests of the adhesives and sealants industry and we liaise with Government regarding legislation to keep members abreast of UK, EU and International proposals and initiatives.

In addition to promoting the interest of industry, BASA's aim is to raise technical standards to assist members and customers in the

selection of products appropriate for specific applications. To this end BASA works very closely with the British Standards Institute (BSI) to set and monitor high standards.

Undeniability BASA's main strength lies in its technical working parties which evaluate product performance, set industry guidelines, and formulate codes of practice. Information gathered by working groups often provides useful materials for leaflets or papers given to conference.

BASA supports the vision of FEICA, the Association of the European Adhesive & Sealant Industry, that the adhesive and sealant industry is committed to enabling a growing population to live a better life and to use the planet's resources responsibly and efficiently.

In light of the transition to a circular economy, BASA supports efforts to improve product efficiency and

circularity to help create a more sustainable society, promoting the concepts of energy saving, material efficiency, reparability, durability and recycling.

We will encourage members to continue developing solutions for energy efficiency, to enable the efficient use of raw materials and to continue to safeguard the environment and people's health.

Events in 2025

Head to the events page on the BASA website for more details and booking info.

April 3rd

BASA Open Industry Forum, Virtual

April 29th – May 1st

FIT Show, NEC, Birmingham

May 21st – 22nd

CHEMUK, NEC, Birmingham

June 18th

BASA Sports Day, Hawkstone Park and West Midlands Shooting Ground

June 24th – 26th

InstallerSHOW, NEC, Birmingham

September 10th – 12th

FEICA European Adhesive & Sealant Conference and EXPO, San Sebastian, Spain

October 1st – 3rd

EURADH European Adhesion Conference, Valencia, Spain

November 6th

BASA Awards, East Midlands Conference Centre, Nottingham

November 27th

BASA Open Industry Forum (OIF), Sketchley Grange, Hinckley

Past Chairs

Since the creation of BASA, there have been 20 Chairs of the Association.

Year	Name	Company
1983–1984	George Hutson	National Adhesives & Resins
1985–1986	Max Kochmann	Pafra Ltd
1987–1988	Colin Hall	Ralli Bondite
1989–1990	Harry Werrell	Swift Adhesives
1991–1992	Paul Jones	Industrial Adhesives
1993–1994	Neil MacDonald	Evode Ltd
1995–1996	Mike Ozier	National Starch & Chemical Ltd

2006–2007	Guy Davis	National Adhesives
2007–2010	Charles Hodgson	Hodgson Sealants Ltd
2010–2012	James Igoe	F. Ball and Co. Ltd
2012–2015	Guy Davis	Beardow Adams
2015–2018	Mark Louch	Mapei (UK) Ltd
2018–2020	Scott Challoner	Wacker Chemicals Ltd
2020–2023	Phillip Lee	Ace Adhesives Ltd
2024–Present	Carol Merrin	Azelis UK Ltd

THE MAX KOCHMANN AWARD WINNERS

This accolade, in memory of one of BASA's founders and former Life President Max Kochmann, is awarded for services to the association by a company or individual.

Year awarded	Name	Company
2005	Tony Bingham	National Starch & Chemical
2006	Roger Lester	BASF plc
2007	Bob Mabbutt	Bostik Ltd (Laybond Adhesives)
2008	Norman Purcell	Sealock Ltd
2009	Lorna Williams	Eastman UK (Synthomer)
2010	Paul Armitt	Itac Ltd
2011	Trevor Clarke	Pafra Adhesives Ltd
2012	Will Barclay	Geocel Ltd
2013	Line Willis	Henkel UK
2014	Desmond Waight DanGoods	Training & Consultancy Ltd
2015	John & Lynda Murdoch	JMA
2016	Neil Sanders	F. Ball and Co. Ltd
2017	James Igoe	F. Ball and Co. Ltd
2018	Jim Palmer	J P Consultancy Ltd
2019	Mark Louch	Mapei UK Ltd
2020★	James Follows	Apollo Chemicals Ltd
2023	Caroline Raine	Caroline Raine Consultant
2024	Jenny Barnett	F. Ball and Co. Ltd
2025	<i>To be announced during the AGM on 18th March 2025.</i>	

★ awarded at the 2022 AGM after a 2-year in-person meeting break due to Covid restrictions.

Technical Overview

Jim Palmer,
Technical Officer

Anticipating Regulatory Challenges and Updates in 2025 and beyond.

As we venture into 2025, the adhesives and sealants industry faces a myriad of regulatory challenges and updates. Some of these changes stem from both the UK's Extended Producer Responsibility (EPR) regulations and the EU's Packaging and Packaging Waste Regulation (PPWR), see article on page 12.

The combined confusion caused by the delayed UK REACH legislation, the remaking of the UK version of the Construction Products Regulation following the Building Safety Act's Royal assent, all add to the complexity. Additionally, the new HSE procedures for GB Classification, Labelling, and Packaging rules, along with updates to the GB Mandatory Classification List, further complicate matters. Meanwhile, the EU's regulatory machine continues, and we see growing divergence between our legislation and Europe's. BASA will, of course, strive to provide timely guidance and advice to assist members navigate a complex and ever-changing landscape.

Eco-design for Sustainable Products Regulation (ESPR)

The ESPR, effective from July 2024, aims to make products more durable, reusable, upgradable, and recyclable.

This regulation includes the Digital Product Passport (DPP) and rules against the destruction of unsold consumer products. Implementation begins in January 2025, with mandatory declarations of various environmental impacts by 2026.

In February 2025 BASA ran its first sustainability training day to assist members in embracing the necessary concepts and approaches.

New Construction Products Regulation (CPR)

The new CPR requires sustainability performance information and the release of dangerous substances information. It includes mandatory declarations for core environmental indicators and aligns with the broader goals of the ESPR, including DPPs.

General Product Safety Regulation (GPSR)

The GPSR updates product safety requirements, introducing new obligations for manufacturers, importers, and distributors. It emphasizes risk assessments, documentation, labelling, and reporting to enhance consumer protection and traceability.

Chemical Regulations

In 2025, the regulatory landscape will see significant updates, including the introduction of new hazard classes under the EU CLP for Endocrine Disruptors (ED), Persistent, Bioaccumulative & Toxic (PBT/vPvB), and Persistent, Mobile, and Toxic (PMT/vPvM), with compliance timelines for substances and mixtures and revised CLP labels effective from 1 January 2027.

The GB CLP will also have updates to the Mandatory Classification List (MCL) with specific compliance timelines. The EU REACH will focus on consultations related to microplastics, essential use criteria revisions, and PFAS pollution restrictions. Meantime UK REACH will hopefully introduce an alternative regulatory model. Additionally, there will be updates in biocide regulations by June 2026 and transport regulations under ADR and UN Model Regulations.

Working Groups

Participating in BASA working groups is an excellent way to stay up to date with the latest developments. I encourage anyone to consider volunteering. These meetings are all virtual, so the time commitment is flexible, but those who participate more fully find it a great contribution to their personal development, as well as keeping up to date with and influencing the development of each topic. Please explore the members' area of the BASA website to see what appeals to you.

Open Industry Forum

Face-to-face meetings remain crucial for developing working relationships, and we intend to hold one Open Industry Forum meeting each year to enable working group members to engage in person.

BASA Bulletin

Finally, the highly popular BASA Bulletin continues to be regularly published in both hard copy and electronic format. For more details, please visit the website.

Green Claims

The Competition and Markets Authority (CMA) defines green claims (also known as environmental or eco-friendly claims) as statements suggesting a product, service, brand, or business benefits the environment or is less harmful to it. Businesses use these claims in marketing, but they must be accurate and backed by evidence. Misleading claims occur when information is false, hidden, misrepresented, or taken out of context.

CMA's Principles for Green Claims:

Green claims must:

- Be truthful and accurate
- Be clear and unambiguous
- Not omit or hide important information
- Use fair and meaningful comparisons
- Consider the full life cycle of the product/service
- Be substantiated

Green claims checklist

Businesses must comply with consumer protection laws and any relevant sector-specific regulations. Before making a claim, businesses should assess their environmental impact throughout a product's life cycle.

A valid green claim should:

1. Be clear, accurate, and easy to understand
2. Be backed by credible, up-to-date evidence
3. Present the full picture without misleading omissions

4. Avoid partial truths or misleading conditions
5. Justify general claims (e.g., "eco-friendly") with full life cycle evidence
6. Clearly state any conditions or caveats
7. Not mislead customers or suppliers
8. Avoid exaggeration or false implications
9. Clearly explain durability and disposal information
10. Include all necessary environmental impact details
11. Offer additional information via accessible sources (e.g., QR codes, websites)
12. Not claim standard or legally required features as environmental benefits
13. Ensure fair, accurate, and understandable comparisons

For further guidance, visit:

<https://www.gov.uk/government/publications/green-claims-code-making-environmental-claims-on-goods-and-services>

Member Benefits

Events and Networking

We host year-round events, including the **AGM, Business Forum & Industry Lunch, Sports Day, and Awards Night**. We also offer free **Technical Forums** (online & in-person) and a mix of free and paid training webinars and workshops to keep members connected and informed.

Trade Association Directory

Members are featured in the **BASA Handbook**, and listed in the online directory. Plus, our **online bulletin** allows members to share their company news.

Affinity Partners

Through our affiliation with leading associations and companies, members gain access to:

- Construction Products Association guidance notes & research.
- FEICA extranet resources.
- Industry collaborations with British Standards Institution, Alliance of Chemical Associations, British Coatings Federation, Association of Sealant Applicators, TWI, IOM3, The Tile Association.

HR, Legal, Health & Safety, Tax & Vat

Members get access to:

- Five business advice lines.
- 750+ free downloadable business documents.
- A no-obligation, one-on-one review with a Quest Business Manager.

Online Support

Every Friday, we host a **30-minute virtual drop-in session** covering important regulatory and business topics. Members can ask questions and receive expert guidance.

Member Offers

Exclusive discounts and services from:

- OAMPS Hazardous Industries.
- 4Ward Testing Services.
- Equals Money Currency Exchange.
- Wallace Hind Recruitment.
- ReachReady Gold Membership.
- FEICA conference discounts & free access to selected seminars.

QUEST

Regulatory Challenges and Opportunities in the Adhesives and Sealants Industry:

A Comparative Analysis of UK EPR and EU PPWR

Jim Palmer,
Technical Officer

Introduction

The UK Extended Producer Responsibility (EPR) regulations and the EU Packaging and Packaging Waste Regulation (PPWR) represent significant shifts in how businesses handle packaging waste, particularly in the adhesives and sealants industry. Both regulations aim to promote sustainability and reduce environmental impact, but they present unique challenges due to packaging contamination issues. This article explores the commonalities and differences between these two regulatory frameworks and their implications for the adhesives and sealants sector.

Understanding UK EPR and Fee Modulation

The UK's EPR regulations require producers to bear the full costs of collecting, sorting, and recycling their packaging materials. This framework encourages sustainable packaging choices by linking costs to environmental impact. Fee modulation plays a crucial role, adjusting EPR fees based on recyclability and contamination levels. The adhesives and sealants industry faces challenges due

to the non-recyclable nature of many packaging formats, such as cartridges and foil packs, which often contain product residues.

Key Aspects of the EU PPWR

The EU PPWR, part of the Green Deal and Circular Economy Action Plan, mandates that all packaging must be recyclable by 2030. It also sets minimum levels of recycled content for plastic packaging and aims to reduce unnecessary packaging. Similar to the UK's EPR, the PPWR requires producers to cover the costs of packaging waste management. However, the EU regulation places a strong emphasis on mandatory recyclability and the use of post-consumer recycled materials.

Commonalities

Both the UK EPR and EU PPWR share several common objectives:

- 1. Promoting Recyclability:** Both regulations encourage the use of easily recyclable materials and aim to reduce the environmental impact of packaging.
- 2. Producer Responsibility:** Producers are financially responsible for the collection, sorting, and recycling of their packaging in both frameworks.
- 3. Contamination Challenges:** The adhesives and sealants industry faces significant challenges under both regulations due to packaging contamination from product residues.
- 4. Fee Modulation:** Both frameworks use fee modulation to incentivize sustainable packaging choices and penalize non-recyclable or contaminated packaging.

Differences

Despite their common goals, there are notable differences between the two regulations:

- 1. Mandatory Recyclability (EU PPWR):** The EU regulation mandates that all packaging must be recyclable by 2030, whereas the UK EPR focuses more on linking fees to environmental impact.
- 2. Recycled Content Requirements (EU PPWR):** The EU PPWR requires minimum levels of recycled content in plastic packaging, a requirement not explicitly stated in the UK EPR.

3. Reduction Targets (EU PPWR):

The EU aims to cut unnecessary packaging, while the UK EPR does not have specific reduction targets.

4. Material Restrictions (EU PPWR):

The EU regulation seeks to phase out non-recyclable packaging formats, while the UK EPR focuses on fee modulation based on recyclability.

Conclusion

Both the UK EPR and EU PPWR present challenges and opportunities for the adhesives and sealants industry, particularly regarding packaging contamination. While both frameworks promote sustainability and producer responsibility, the EU PPWR places a stronger emphasis on mandatory recyclability and recycled content. The UK EPR, on the other hand, focuses more on financial incentives through fee modulation. To navigate these regulations effectively, businesses must invest in eco-friendly packaging design, residue-reducing dispensing systems, take-back programs, and engage with policymakers and industry groups. By doing so, companies can not only comply with regulations but also enhance their reputation and contribute to a more sustainable future.

Committees & Working Groups

Working Groups

BASA's working and task groups cover a wide range of technical, standards and regulatory issues. Experts from member companies, supported by consultants, ensure each group is kept up-to-date on behalf of the membership.

We also have a number of task groups to manage specific activities, and may want members to join to move some of these topics forward:

- **Poison Centres Task Group** – focusing on European Poison Centres requirements.
- **Polymers Task Force** – covering polymers under EU and UK REACH.
- **CPR Task Force** – dealing with construction products legislation in the UK and EU.
- **Product Packaging Task Force** – a newly established task force examining the future of adhesive and sealant packaging in the context of Extended Producer Responsibility (EPR) and plastics tax regimes in the UK and EU.

All members listed as registered on the BASA website as of 1st February 2025.

Alliance of Chemical Associations

Lorna Williams, BASA CEO is the Secretary of the ACA. ACA consists of trade associations representing companies operating in many sectors of the chemical industry supply chain, from the manufacture and the distribution of chemicals to their use for products such as plastics, paint and cosmetics.

Other UK Association Partners

The other UK associations that BASA work with include:

THE TILE ASSOCIATION
EXCELLENCE IN TILING

International Associations

The other associations within the industry accross the globe include:

Danish Coatings and Adhesives Association

Hellenic Adhesives and Sealants Cluster

Join BASA

Membership is available for:

Adhesives and Sealants Manufacturing and Supplier Membership

Companies actively engaged in the formulation and manufacture or distribution of adhesives and/or sealants for sale in the UK and Ireland.

Raw Material Manufacturing and Supplier Membership

Companies supplying raw materials to the British adhesives and/or sealants industry.

Associate Membership

Associate membership is available for members whose business is not directly related to the supply of raw materials or adhesives and sealants.

Consultancy Membership

Consultants can apply for membership if their business is relevant for the sector.

BRITISH ADHESIVES & SEALANTS ASSOCIATION

4ward Testing Ltd

Address:

5 Hampers Common
Industrial Estate, Petworth,
West Sussex, GU28 9NR

**Telephone:**

01798 342240

4Ward Testing is a UKAS Accredited Testing Laboratory No 0307, operating to ISO 17025:2017 Quality System. We are a Approved Body Laboratory (System 3) No: 2538 for testing to BS EN 15651 Parts 1–4 (latest edition) Sealants for non-structural joints in Buildings and Pedestrian walkways.

We test to National and International Standards, including: BS, ASTM, SS, DIN, ISO, EN, MIL, IEC and other bespoke product specific methods. 4Ward Testing offers a range of testing services including destructive and non-destructive material testing, as well as environmental ageing.

We specialise in testing Construction (Sealants, Adhesives, Waterproof Membranes and Rubber etc.) Automotive, Aerospace, Marine products and materials.

Ace Adhesives Limited

Address:

Shenstone Drive, Northgate,
Aldridge, Walsall, West Midlands, WS9 8T

Telephone:

01922 459393

Ace Adhesives stands as one of Britain's premier industrial glue suppliers, serving manufacturing clients from Cornwall to Inverness through three strategic UK sites. Since joining the Gluecom Group in 2005, Ace has strengthened its market position while maintaining its distinctive British character and service excellence. The Gluecom Group, with facilities across Belgium, France, Germany, Poland and the UK, produces an extensive range of adhesive solutions: PVA dispersions, Hotmelt Adhesives, Starch Adhesives and Jelly Glues. Each product meets strict quality standards and environmental regulations.

Ace Adhesives has built particular expertise in industrial adhesives for paper, board and timber applications. Our specialised products serve diverse manufacturing needs:

- Print and Publishing: Books, brochures, magazines
- Paper Processing: Cardboard cores, tissue paper, paper bags
- Packaging Solutions: Corrugated cases, folding cartons, trays, litho laminated cartons
- Office Products: Lever arch files, ring binders, presentation boxes
- Furniture Manufacturing: Worktops, panels, doors, beds, sofas

Our success stems from three core principles: manufacturing excellence, product innovation and outstanding technical support. We take pride in our 40-year track record of helping British manufacturers optimise their production processes through targeted adhesive solutions. Our technical team brings decades of combined experience to each client relationship. We offer comprehensive support from initial consultation through ongoing production, with specialists ready to visit manufacturing sites across Britain. Speak with our technical specialists about your requirements. Our staff bring deep knowledge of adhesive applications across manufacturing sectors and will guide you through product selection and implementation.

Action Adhesives is a leading distributor supplier of Industrial adhesives, glues, sealants and tapes within Ireland & the UK.

Action Adhesives was established in 1997. Over the past 20 years the business has grown and developed. Today the group includes Hot Melt Equipment Ireland and McConnells Coatings, whose office is in Kilteran in Dublin. Action Adhesives has been at the forefront of the industrial adhesives technology. Our comprehensive product range covers a variety of bonding applications. From locking and sealing to advanced structural bonding technology.

Our technical service is flexible and dedicated, producing original concepts. We have over 20 years experience in bonding. Our strength is in the quality of our products and service. We understand that the customer comes first.

AdCo (UK) Ltd

Address:

43-45 Passfield Business Centre,
Lynchborough Road, Passfield,
Liphook, Hampshire, GU30 7SB

Telephone:

01428 751755

AdCo (UK) Limited is a specialist adhesive company supplying a range of highly technical based adhesives, allied products and application equipment to a wide variety of markets including:

- Packaging
- Furniture & Joinery
- Printing & Bookbinding
- Education
- Arts & Crafts
- Building & Construction
- Product Assembly
- Electronics.

AdCo has its own range of products and also offer the full range of speciality adhesives and sealants from international manufacturers, all of which have a comprehensive range that compliment each other. AdCo are official UK distributors for the full range of adhesives from AkzoNobel of Sweden, for veneering, laminating and structural timber bonding. With these product ranges behind us AdCo are able to offer a range of adhesives and allied products that are the envy of many adhesive companies. With our knowledge of adhesives and application techniques we offer a 'find & supply' service to all, thus ensuring that any bonding problem can be solved.

In 2017 AdCo acquired the manufacturing, sales and distribution rights to the full range of speciality binding and printing adhesives, including Rioflex fan-a-part padding adhesive for NCR papers, previously manufactured by Howarine Calvert Ltd. AdCo – The Professional's Choice.

Advanced Adhesives Ltd

Address:

Architectural House,
Plummer Street, Newcastle,
Tyne & Wear, NE4 7AB

Telephone:

01912 722982

Advanced Adhesives was founded in 1996. From a humble start up, it has grown into a thriving company which has grown 20% year on year for the last 8 years. This has allowed the business to make the necessary investments in buildings, staff and equipment to "right size" the business for the business which it will become over the next five years and beyond. We are a medium size company with very large aspirations. We have expert adhesives, advice and testing facilities to rival the big boys. Our size allows a higher degree of flexibility, offering you shorter lead times, better communication, and an ability to rapidly develop solid solutions, no matter the order quantity. We have achieved this rapid growth by significant reinvestment in automation, which has helped us to reduce costs for end users. The in house testing facilities ensure stronger and safer products, and we recently moved to a 1000Sqm facility to keep up with increasing demand, building a brand new production facility in the process.

Supplying industry sectors of : Automotive, Marine, Electronics, Aerospace, Commercial Signage, White goods manufacturing, Construction, Power generation, Military and Engineering. Our products range includes Anaerobic, Cyanoacrylate, Hybrid MMA Structural Adhesives, Epoxies, Silicone and Polyurethane technology, U.V. Light Curing Adhesives, Hot Melts, Solvents & Water Borne, and High Performance Tapes.

We are a British owned and operated adhesive company and export worldwide. We hope to build partnerships with our customers and bonds beyond business.

Advatac Limited

Address:

Nunn Close,
Huthwaite,
Nottinghamshire,
NG17 2HW

Telephone:

01623 516055

An independent UK manufacturer, supplier and distributor of industrial adhesives, primarily serving a wide range of industries across the UK and Ireland. Our vast range of adhesives includes water based, hot melts, solvent based, reactive PUR's as well as solvent-free polyurethanes and other reactive systems including cyanoacrylates and structural acrylics.

Having a worldwide supply base we are able to liaise with many adhesive manufacturers, raw material suppliers as well as independent technical consultants to OEM's to create a product range that meets the demands of ever changing markets.

As well as our direct sales activities we also work with distributors to enable access to all markets and reach down to all levels of customers, thus offering fast and reliable deliveries as well as local technical support.

AGB ChemicalCompliance

Address:

33 Claremont Road,
Marlow, Buckinghamshire,
SL7 1BH

AGB ChemicalCompliance

AGB ChemicalCompliance, a consultancy owned by Tony Bingham, offers help with regulatory issues in areas such as: REACH compliance (auditing, development of compliance processes, upstream / downstream communication, bespoke in-house training, CLP Regulations (safety data sheets, labels, raw materials), Food contact regulatory issues, Sustainable Development Training on regulatory issues, Competent Authority engagement (e.g. representation/negotiation on your behalf with Government bodies), Review and analysis of legislation (including the preparation and submission of comments on public drafts).

We combine a practical hands on approach with a deep understanding of the impact of chemical regulation on the industrial chemicals formulating industry. Tony is a chemical products safety professional with more than 25 years' regulatory experience in blue chip companies such as Unilever and ICI (working for National Starch & Chemical). Tony has excellent interpersonal and communication skills, with an extensive experience of engagement with UK regulatory competent authorities gained whilst representing his business trade associations as well as working within industry groups at CIA and CEFIC. He has a proven ability to influence the decisions of senior management in order to achieve regulatory compliance. Tony is a Council member of the Chemical Hazards Communication Society (CHCS), a past chair of BASA's Packaging Adhesives WP and FEICA's Hazardous Products WP. He is currently working as a consultant for FEICA on some packaging adhesive issues, as well as for BASA as secretarial support for the Health and Safety, Environment and Packaging Adhesives Working Parties and as Sustainability Officer. Tony represents BASA on FEICA's Public Affairs Committee.

The medium-sized company with its headquarter in Krefeld was founded more than 250 years ago and is still privately owned.

Alberdingk Boley's environmentally friendly binders refine, bond, embellish and protect surfaces. Aqueous polyurethane, plastic and adhesive dispersions are produced for use in paints, architectural paints, plasters, wood coatings, anti-corrosion coatings and adhesives.

Alberdingk Boley is also the largest European producer of castor oil, varnish linseed oil and its derivatives. These are used industrially as renewable raw materials for further processing in printing inks, PU systems, the cosmetics and pharmaceutical industry.

With production facilities in China and the USA, Alberdingk Boley employs more than 500 people worldwide. Alberdingk Boley GmbH has been awarded as a Leading Employer and TOP JOB company.

Alpha Adhesives & Sealants Ltd

Address:

Llewellyn Close,
Sandy Lane Industrial Estate,
Stourport-on-Severn,
Worcestershire, DY13 9RH

Telephone:

01299 828626

Alpha Adhesives & Sealants Limited was established in 1987, with the aim of providing quality adhesives, sealants and coatings. During the ensuing years Alpha developed its business across a wide customer base to include Automotive, Marine, Construction, Aerospace, Civil Engineering, Military and general industry.

The quality of Alpha products together with the 'Can Do' approach by the highly experienced management and Technical team have been key factors in the company's success in establishing successful partnerships with customers all over the world. Alpha acquired the Dunlop Industrial Adhesives Division in March 2004; origins of which date back to the early 1950's and include brand names such as 'Thixofix'. This manufacturing site was re-located to Worcestershire and full manufacturing to original formulations was taken over by Alpha. The head office, manufacturing plant, warehouse and R & D laboratory are based centrally in a modern facility on the outskirts of Stourport-on-Severn, Worcestershire.

BSI ISO 9001:2015 Accredited Alpha takes pride in carrying out collaborative research and development to meet specific customer requirements.

Alpha products are backed up by experienced in house technical service department. It is through these services together with an extensive product range, that Alpha is able to meet the ever changing needs of its diverse customer base. All ALPHA products are associated with the finest in Adhesive Sealant and coatings technology. If you have an application, we have the technology!

Apollo Solutions an HB Fuller Company

Address:

Sandy Way,
Amington Industrial Estate,
Tamworth, Staffordshire, B77 4DS

Telephone:

01827 54281

Apollo is a liquid adhesive, sealant, coating & primer manufacturer. We supply high-performance products worldwide across a range of industrial, construction, roofing and end-user markets. Supply is direct and via distributors, under Apollo and private-label brands. Established in 1972 in Tamworth, Apollo's vision is to become the unseen coating, adhesive and primer department of our customers' businesses. Our vision is in sync with building long-term partnerships by adding value and building trust.

At Apollo, we have great people who are passionate about solving customer problems. We strive to add value across our entire supply chain, which is communicated via our brand promise 'More than adhesives'. In January 2022, Apollo became part of the global and well-respected adhesive manufacturer, H.B. Fuller. Since 1887, H.B. Fuller has been a leading global adhesives provider focusing on perfecting adhesives, sealants and other specialty chemical products to improve products and lives.

Moving forward, the change of ownership opens up access to further resource, technology and expertise to further enhance product offering and service to customers. We are excited about utilising such assets and collaborating with our customers to help them to develop and grow in their markets. Being part of a global company also gives our customers further reassurance regarding continuity of supply. We now excitedly look to the future together.

ARDEX UK Limited

Address:

Homefield Road,
Haverhill, Suffolk, CB9 8QP

Telephone: 01440 714939

For more than 60 years, ARDEX has been a quality leader for the flooring and tiling industries, the brand of choice for installers and distributors. ARDEX today is still an independent family-owned business. This means that in our permanent efforts to achieve market-shaping innovations, we have been able to retain our most important tradition: uncompromising quality. This is something we guarantee by applying the latest rigidly enforced quality assurance procedures, making it no coincidence that ARDEX is regarded as a premium partner of the construction industry.

Strong internal growth and intelligent acquisitions in foreign markets have put the ARDEX Group on the map with 53 subsidiaries and 3,000 employees on all continents. With its 14 major brands, the ARDEX Group generated a worldwide annual turnover in excess of 770 million euros in 2018. This marks an important milestone for ARDEX in becoming one of the world's leading suppliers of high-quality specialist building materials.

As a longstanding partner to the trade, we know the practical requirements first hand. Our vast experience of materials and working methods, coupled with constant dialogue with our customers in the skilled trades, are our most important source of inspiration. We draw on this to develop product systems that command respect in the marketplace by meeting professionals needs. Our systems are optimally matched and extremely cost-effective thanks to their ease of use and high coverage.

Telephone:

0161 475 3000

BASF is the world's leading chemical company, combining economic success with commitment to environmental protection and social responsibility. Through science and innovation, we enable our customers in nearly every industry to meet the current and future needs of society. Our portfolio comprises six segments: Chemicals, Materials, Industrial Solutions, Surface Technologies, Nutrition & Care and Agricultural Solutions.

The range of raw materials offered by BASF for Adhesives & Sealants includes aqueous polymer dispersions and adhesive additives that have been optimized to suit a variety of applications. Our products are used especially in packaging, transportation, furniture and labels. We offer Adhesive Raw Materials for Industrial Adhesives in the following fields of application: packaging adhesives – especially for peel & seal envelope closures and labelling of plastic bottles, lamination adhesives – especially for glossy film overprint lamination and film/film composites, and lamination adhesives for the interior car trim, furniture foil and the shoe industry. In addition, we have some special products to improve the adhesion of packaging adhesives on difficult surfaces.

BASF uses BTC to distribute their portfolio of Adhesive Raw Materials in Europe. BTC Europe is BASF's pan-European distribution organization for small and medium-sized customers. BTC offer the full range of BASF products for the Adhesives & Sealants industry and are also able to offer complimentary products, such as Rheovis® Rheology modifiers, Dispex® Dispersants, Tinuvin® light stabilisers, Irganox® anti-oxidants, Plasticisers, Pigments, and the versatile Oppanol® and Glissopal® polyisobutenes (PIB). Many grades are offered as Biomass Balanced or Chemcycled options.

Chemique Adhesives and Sealants Ltd

Address:

Empire Close, Aldridge,
West Midlands, WS9 8UR

Telephone:

01922 459321

Established in 1985, UK manufacturer Chemique Adhesives has become a pioneer in the development of industry-leading adhesive solutions, while also providing first-class service and support to its growing customer base.

Chemique Adhesives has always been committed to delivering exceptional products that accommodate the diverse needs of its customers. Over the years, the company has continuously evolved and expanded its product portfolio to cater for many industries including artificial turf, automotive, commercial manufacturing, construction, foam, furniture, panel lamination, raised access flooring, transportation and more.

Products offered include polyurethanes, water-based adhesives, hot melts, solvent-based adhesives, epoxies and more. The company's manufacturing and service procedures comply with ISO 9001 quality standards, providing peace of mind that all products consistently meet exact technical specifications.

While the chemists work on advanced adhesive formulas, Chemique Adhesive's engineers focus on application methods, enabling the company to offer customers a unique 'Total Service Package' of adhesives, application equipment, service and support.

With an enhanced production capacity and expanded storage facilities, Chemique Adhesives can provide a bespoke toll manufacturing service, producing and packaging adhesives to exact specifications.

FEICA

Address:

Rue Belliard 40,
Brussels,
1040 Belgium

In the late 1950s, the first meetings of European producers of vegetable adhesives from five countries took place. In 1967, meetings started to include European producers of chemical adhesives. Finally, in 1972, FEICA (Fédération Européenne des Industries de Colles et Adhésifs) was formally founded. The German adhesives association in Düsseldorf served as the first location of the FEICA secretariat. FEICA moved to Brussels in 2007 in order to be closer to other European associations as well as to the European Commission itself.

Since its inception, FEICA has continued to grow and expand its areas of interest. With the support of its National Association Members and several Direct Company Members and Affiliated Company Members, FEICA coordinates, represents and advocates the common interests of our industry throughout Europe. A quick overview of our members is available on our 'FEICA in brief' page.

In this regard, FEICA aims to establish a constructive dialogue with legislators in order to act as a reliable partner to resolve issues affecting the European adhesive and sealant industry.

The Association of the European Adhesive & Sealant Industry
FEICA is the voice of the European adhesive and sealant industry. Today's membership stands at 16 National Association Members (representing 17 countries), 26 Direct Company Members and 25 Affiliate Company Members. This represents more than 450 companies from across Europe.

Fix-A-Floor UK

Address:

79 Blackford Road,
Shirley, Solihull,
West Midlands, B90 4DA

Fix-A-Floor®

Telephone:

01212 708883

Fix-A-Floor is an Extra Strength Bonding Adhesive customised for the specific use of Re-Bonding loose and hollow tile, marble, stone & squeaky wood floors without the headache and mess of removing or replacing them. Sold in the UK since 2014 Fix-A-Floor UK is the market leader in its floor repair adhesive which is now available in over 50 countries worldwide.

The key to the product's effectiveness is its combination of a very powerful and flexible adhesive with elastomeric properties, combined with an extremely low viscosity prior to curing. This means that it will flow under a tile completely filling the void underneath it and ensuring an end to wobbly and loose tiles – which are obviously more prone to breaking, if not fixed down quickly. Fix-A-Floor is Strong & Flexible and cures with elastomeric bonding properties which can eliminate any future problems due to foundation settlement, expansion & contraction of the sub floor as well as poor original installation.

Fix-A-Floor are proud members of trade body The Tile Association and have been recognised at the Annual TTA awards with Best Innovation product of 2023! – We pride ourselves in exceptional customer service and engagement with customers and are extremely passionate about our product and in providing exceptional customer service and after-sales support.

Fosroc International Limited

Address:

Drayton Manor Business Park,
Coleshill Road, Tamworth,
Staffordshire, B78 3XN

Telephone:

01827 262222

Fosroc is an international leader in construction chemicals supplying many projects across a broad range of sectors including commercial, industrial, residential, marine and infrastructure. The product range includes sealants, waterproofing products, grouts, repair mortars, flooring products, coatings and concrete admixtures.

All Fosroc products meet international specifications and have been used on some of the largest and most prestigious projects in the UK and overseas. Our sealants utilise all major polymer technologies, including polysulphide, modified, silane, polyurethane, epoxy and hot applied materials, making them suitable for most building and civil engineering needs.

Fosroc sealants range from chemical resistant to intumescent and are used in a wide variety of applications, including sewage treatment works, highways, runways, factory floors, stadia and building facades.

Supported by an experienced technical helpline and first-class customer service, Fosroc is able to work with customers to provide a complete solution, whatever the project.

FSi Limited

Address:

Westminster Industrial Estate,
Tamworth Road, Measham,
Leicestershire, DE12 7DS

Telephone:

01530 515130

FSi are the largest manufacturer of passive fire protection products in the UK and we are proud to be part of the Etex group – the UK's leading source of drywall, steel framing and fire protection solutions. FSi manufactures and develops a complete range of market leading compartmentation systems (Fire Rated intumescent acrylic sealant, Fire Rated silicone, Graphite sealant, Ablative coating, FR pipe collars, FR Compound, Batts etc...) suitable for applications all over the world.

Alongside this we have a comprehensive range of test data backing up these innovative products. These systems are primarily used to prevent or slow down the passage of elements, such as fire, air, sound, movement and water. We pride ourselves on the high level of testing and technical expertise that has been built up through years of experience within the industry, from site hand to dealing with large Multi-National conglomerates, this either under our brand or private label. This allows us to supply product both in the UK (BS Regulation) throughout Europe (EN Regulation) and Worldwide (EN and UL Regulation). All of our main products are 3rd party certified. We also offer a complete range of systems which are CE Marked, showing that our quality can be measured. We are here to help and make sure the correct solution is specified correctly the first time to ensure budgets, timescales and required specifications are kept to.

Furthermore, alongside our market leading Fire Rated products, we manufacture as well a range of technical sealant (neutral cure silicone, acrylics etc) for application in the construction industry.

Gorilla Glue Europe Ltd

Address:

26 Eaton Avenue,
Matrix Park, Buckshaw Village,
Chorley, Lancashire, PR7 7NA

Telephone:

08435 071 200

Gorilla Glue Europe Ltd is part of The Gorilla Glue Company based in Cincinnati, Ohio. Gorilla as a brand has been available in the UK and Europe for over 10 years, with Gorilla Glue® itself sold in the USA for over three decades. The glue was first discovered being used in Indonesia on teak furniture, but consumers soon found it to be incredibly versatile and demand soared. On a mission to make products that deliver impressive results, the company has since expanded its offerings to include Gorilla Tape®, Gorilla® Super Glue, Gorilla® Grab Adhesive, and other premium tapes, sealants, and adhesives.

At Gorilla, we believe in high-quality products and choose to only put the Gorilla logo on products that meet rigorous development standards. In addition to great products, we strive to be a great company for our employees. The Gorilla Glue Company is family-owned and operated and prides itself on its family atmosphere and fun-but-serious products. Our employees are our number one asset, and our company is dedicated to providing a healthy work culture centered on family values.

Henkel is one of only 1% of companies with the Platinum EcoVadis Sustainability Rating.

Hodgson Sealants Ltd

Address:

Belprin Road,
Beverley, East Yorkshire,
HU17 0LN

Telephone:

01482 868321

Hodgson Sealants are the largest independent sealant manufacturer in the UK. We're a family-run business based in Yorkshire and we've been growing for over 50 years. We're proud to be leading the way in sealant manufacturing in the UK, with our own in-house R&D facility. Our products are supplied across the globe.

Celebrating our 50th Anniversary in 2018 we demonstrate a track record of supplying high performance products to building, transportation and consumer markets for over half a century. As a UK based manufacturer we are well placed to provide customers with the option of own label products as well as the Hodgson brand and have the ability to develop solutions tailored to our customers specific needs. Our manufacturing capabilities range from silicone and hybrid sealants/adhesives through to acrylics, butyl based sealants and even putties. We aim to be the first choice for anyone wanting to buy trusted quality products from a long established UK manufacturer.

In 2022 Hodgson Sealants Group Ltd, the parent company of Hodgson Sealants Ltd, acquired independent private label sealant manufacturer Britchem Ltd.

Lake employs the finest talented professionals to discover the speciality products and processes that create technical and commercial value for our customers and suppliers. We operate as a specialist technical distributor understanding the needs of customers, uncovering solutions to problems and forging lasting relationships with suppliers. Technical and regulatory challenges inspire us to find entrepreneurial solutions. A thorough technical understanding and a hard won degree at the University of Industrial Life enable us to repeatedly create technical and commercial value. A first class logistics operation moves hundreds of containers and iso-tanks from suppliers located in The Americas, Europe and Asia into professional storage and logistics facilities ready for delivery to our customers in the United Kingdom and Ireland. A partnership with the LEL Group, a European strategic alliance with like-minded Technical Distribution Specialists, enhances our capabilities to provide additional value to our customers and suppliers.

Leeson Polyurethanes Ltd

Address:

Hermes Close,
Warwick,
Warwickshire,
CV34 6RP

Telephone:

01926 833367

Leeson Polyurethanes Ltd develop, manufacture and market solvent free PU adhesives, binders, and anti-skid coatings. Formulations based upon aromatic and aliphatic polyurethanes are available. The company offers its customers the complete package of polyurethane adhesives and assistance with support on application equipment suitability. Leeson Polyurethanes Ltd specialises in the development of products specifically designed to meet each customer's requirements and is the leader in its fields. Quality control is given an extremely high priority, with each product's performance tested under conditions consistent with the customer's application before despatch. The company's commitment to quality is ensured by following the ISO 9001:2015 standard, which is externally audited. Through its technical strength and depth of end use application it has been able to offer an unsurpassable package of service to its customers both in the UK and export markets. Products include: One and two component polyurethanes including insulated panel lamination, wood bonding, lightweight panel lamination, foam conversion and specialised applications. Polyurethane coatings for stone carpets, anti-skid coatings and industrial flooring, polyurethane binders for safety surfacing and sports pitches. In October 2020 Leeson Polyurethanes joined the Building Solutions Group (BSG) division of ICP Group. This allows Leeson Polyurethanes to further support customers with a wide range of products and technologies.

OAMPS Hazardous Industries

Address: Kings Court,
41–51 Kingston Road,
Leatherhead, Surrey,
KT22 7SL

Telephone:
01372 869762

Thanks to over 30 years in the business, providing advice for companies in 'high hazard' industries, we have deep knowledge and expertise of these businesses' insurance needs. Our knowledge and industry insight is fuelled by close working relationships with the leading industry organisations. We fit insurance to your business rather than trying to fit your business to an insurance product. Every business is unique. At OAMPS, we make it our business to understand yours. We always begin by taking the time to gain an insight into how your business operates and all the risks you may be exposed to. That puts us in the best position to evaluate a wide range of insurance policies from leading insurers then recommend the risk management and insurance plan that best suits you. We offer a full suite of specialist insurance and risk management products for the fuel, hazardous haulage, chemical and environmental sectors, including:

- Motor
- Property
- Goods in Transit
- Liability
- Business Interruption
- Personal Accident
- Directors & Officers Liability
- Cyber

OAMPS aims to help clients minimise risk through proactive Risk Management, however should you be unfortunate to be involved in an incident we have specialist services to make sure the process is as painless as possible and your business and reputation is protected.

Pafra Adhesives Ltd

Address:

Bentalls, Basildon,
Essex, SS14 3BU

Telephone:

01268 290610

Since 1959, we've created precision-engineered adhesives that set industry standards. Our status as the Gluecom Group's centre of excellence stems from our advanced laboratory and ISO 14001 certification – proof of our environmental stewardship.

Our skilled team crafts high-performance, cost-optimised adhesives for paper converting, packaging, labels and tape manufacturing. Each product reflects decades of scientific research and practical know-how. We pair technical brilliance with strict quality control, offering solutions that match exact specifications while maintaining competitive pricing.

Your success drives our research. By investing in product enhancement and pioneering new formulations, we deliver adhesives that exceed industrial demands for consistency, cleanliness and efficiency. Our in-house testing facilities let us simulate real-world conditions, guaranteeing optimal performance across varied applications.

From standard ranges to custom solutions, our technical experts collaborate with you to pinpoint the perfect adhesive match. This personalised approach, backed by 60+ years of expertise, helps you achieve outstanding results. Our sales and technical teams unite deep product knowledge with manufacturing insight, guiding you through selection and implementation.

The combination of our ISO 14001 certification, state-of-the-art laboratory, and proven track record makes us a trusted partner across industries. We maintain close relationships with raw material suppliers, staying ahead of market trends and emerging technologies to bring you innovative, sustainable adhesive solutions.

Palace Chemicals Ltd

Address:

Speke Hall Industrial Estate,
Speke, Liverpool, Merseyside, L24 1YA

Telephone:

01514 866101

Palace Chemicals Ltd is a privately owned UK based manufacturer of Building Chemicals, Adhesives and DIY products which include a comprehensive range of preparation products, tile adhesives, grouts and surface "after-care" products under the brands of PALACE & NX for the professional Tile fixing products and LANGLOW / PALACE for DIY products. Palace are also long-established in offering a fully supported "private label" service for large nationwide distributors preferring to operate under their own brand. Whilst Tiling products remain the core activity for Palace Chemicals, we were originally established in 1978 as a manufacturer of a broad range of building chemicals and damp-proofing products and this expertise remains a central part of the company's product range today. The Palace building product range still includes Water-proofing systems, timber treatments, mortar admixtures, general purpose building adhesives and protective surface coatings. Palace acquired Langlow Products in 1995 which was one of the pioneering DIY brands, offering a unique and extensive range of DIY solvents, Decorating sundries, wallpaper adhesives, Fillers, sealants and Paint removers all under the LANGLOW brand and designed to meet the needs of the Decorating professional or DIY enthusiast. Palace Chemicals operates to standards accredited by the BSI for the Quality assurance, Environmental Management & Health & Safety Management and remains committed to developing product formulations and manufacturing technology, which ensures the range offered meets both high volume demands whilst maintaining premium service levels expected by the major multiples. The PALACE tiling range includes an extensive portfolio of high-performance Tile and Stone adhesives, grouts, sealants, waterproofing membranes and surface "After-Care" products. The range also covers an extensive selection of floor levellers and building admixtures to meet the requirements demanded by the flooring preparation specialist. The high reputation of our products and follow-up support services have gained wide appreciation across both professional and DIY distribution outlets and encourages many of our larger customers & distributors to choose Palace as their private label partner.

Sovereign Chemicals Ltd

Address:

Park Road,
Barrow-in-Furness,
Cumbria, LA14 4EQ

Sovereign
the gold standard in building products

Telephone:

01229 870800

Founded in 1965, Sovereign has long been acknowledged as the respected name in the field of chemical products for the building and construction industry. The company is the acknowledged leader in chemical damp-coursing throughout the UK. Sovereign offers an extensive range of both remedial and general building products as well as an unrivalled specifications and technical service. At Sovereign we pride ourselves on offering only top quality products manufactured at our Barrow-in-Furness site to our own exacting formulations. We are committed to continually improving both our product range and service levels to ensure we can best service the demands and requirements of both existing and new customers. Endorsement of the quality of Sovereign products can be seen from the fact that the company was awarded the Royal Warrant in 1987 as a result of its building chemicals being used with great success in several Royal residences. To be awarded British Standards Registered Firm status is one of the highest accolades that any company active in the industry can hope to achieve. The company must satisfy the demanding requirements of BS EN ISO 9001/9002 as it applies to manufacturing systems and product quality. Sovereign was the first company in the damp-proofing field to gain BSI approval for its whole range of products.

Structural Adhesives Ltd has been at the forefront of high-performance bonding solutions for over 35 years. Based in Central England, we have a global reach, providing advanced adhesive technologies to industries such as aerospace, construction, engineering, and transportation. Our close collaborations with clients as well as architects, specifiers and engineers ensure that we deliver sustainable, purposeful solutions that meet a wide range of application needs, including our epoxy, acrylic, and hybrid polymer adhesives. One of our standout products is our A2-s1d0 fire-rated adhesive, which has redefined safety standards in the construction industry. Specially formulated to provide enhanced safety for buildings over 11 metres, this adhesive sets a new benchmark for limited combustibility, ensuring compliance with industry regulations and contributing to safer, more sustainable structures. At Structural Adhesives Ltd, partnerships and collaborations are key drivers of our innovation. Through our Luma R&D Laboratory Services, our highly skilled chemists work closely with clients and academic institutions to conduct R&D that not only meets but often exceeds expectations. Our research focuses on improving performance and sustainability, while also delivering economic efficiencies and addressing health and safety concerns. Our collaborative approach with academic and industry partners like University of Leicester, allows us to accelerate innovation and stay at the forefront of technology. Luma R&D Laboratory Services also supports our manufacturing excellence by offering a range of testing services, including tensile, flexural, and peel strength tests. This ensures products achieve the highest standards of durability and reliability to meet the unique needs of our customers. Our commitment to quality and environmental stewardship is demonstrated by our ISO 9001:2015 certification and REACH compliance, ensuring that we continue to lead the adhesives market with integrity, innovation, and a focus on sustainability.

Synthomer plc

Address:

45 Pall Mall,
London, SW1Y 5JG

Telephone:

01279 436211

Synthomer plc are a world-leading supplier of high-performance, highly specialised polymers and ingredients that play vital roles in key sectors such as coatings, construction, adhesives, and health and protection – growing markets that serve billions of end users worldwide. Through our agile approach, we collaborate with more than 6,000 customers to enhance our existing products and services, and create innovative tailor-made solutions. Synthomer is a leading global supplier of emulsion polymers, with a particularly broad product portfolio. We supply to a wide range of industries, not only adhesives and sealants, but also coatings and construction materials, textiles and carpets, paper and board. Our mission is to provide excellent customer service through a highly experienced team of sales managers and technical service chemists dedicated to delivering formulation advice and innovative end use solutions. We pride ourselves on our long-standing leadership of the UK and Ireland emulsion polymers market

From our innovation centres of excellence and manufacturing sites across Europe, North America and Asia, we collaborate closely with our customers to develop new products and enhance existing ones tailored to their needs, with an increasing range of sustainability benefits. And through our focus on making our business more efficient, more global and even more specialised, we are positioned to lead the way as a speciality business whose products enhance people's homes and cities, lifestyles, transportation and healthcare.

Our key strengths include our talented people, global footprint, agile supply chain, innovation and product development expertise and cash-generative business model. We create products and solutions for 6,000 long-standing customers in multiple attractive end markets, with global exposure to growth megatrends via our three end-customer focused divisions, with innovation driving new product development in close collaboration with customers, and a focus on sustainability throughout our value chain.

TER (UK) Ltd

Address:

Milton Hall,
Ely Road, Milton,
Cambridge,
CB24 6WZ

Telephone:

01223 828640

In July 2012 the TER GROUP further strengthened its growing pan-European network by opening TER (UK) in Cambridge. The launch has proved a great success enabling UK customers to source a wide range of raw materials. The initial focus was on offering raw materials for the Paints & Coatings, Construction, Adhesives, Textiles, Paper and Glass Fibre industries. Today TER (UK) are servicing a wide range of UK customers with both direct shipments or with materials from strategically located UK warehousing. In a second phase TER (UK) enhanced its raw material portfolio by being appointed the UK Distribution partner for a variety of product lines from both Evonik Industries and Claraint SE. TER (UK) have also implemented the activities of its Group Industry "Food & Feed" which is a core business activity of the TER GROUP.

TER (UK)'s aim is to continue the TER philosophy of working closely with our customers to identify the raw materials they want – and to provide them with a range of products that meets their requirements in terms of quality, price, delivery and back-up.

Trade Grade Products Ltd (The Glue People)

Address:

70 – 72 Cobham Road,
Ferndown Ind Est, Wimborne,
Dorset, BH21 7RN

Telephone:

01202 820177

The Glue People

Manufacturer and distributor of industrial and commercial adhesives, sealants and adhesive tapes. Suppliers to the Caravan Manufacture and Repair Market, Joinery and Shopfitting, Vehicle Converters, Upholstery, Portable Building Manufacturers, Exhibition Companies, etc. We can offer advice on all aspects of the adhesive trade including Contact adhesives, Sprayable systems, Structural adhesives (epoxy, methacrylate, cyanoacrylic, thread-locks, etc), Sealants, Hot melt adhesives, Water based systems, Adhesive tapes, Polyurethane resins and many more.

Tremco CPG UK Limited

Address:

Coupland Road,
Hindley Green, Wigan,
Lancashire, WN2 4HT

Construction Products Group

Telephone:

01942 251400

Tremco is a European manufacturer and service provider of high-performance sealing, bonding, flooring, waterproofing and passive fire protection products for the construction and manufacturing industries. We ensure that your processes become faster, smarter and more efficient. Our expertise is backed by many thousands of proprietary products under strong premium brands such as TREMCO, illbruck and Nullifire, which stand for innovative, reliable products and unrivalled services. Our deep expertise is focused on Window, Façade, Insulating Glass, Flooring, Waterproofing, Fire Protection and non-construction Industry segments.

For more than 75 years, Tremco has been the UK's preferred choice for waterproofing including roofing and flooring solutions. We pride ourselves on remaining innovative and ecological by offering contractors, building owners, facility managers, and specifiers fully compatible systems.

A brand of Tremco CPG UK, Tremco is recognised by building professionals and the construction industry across the UK, Europe and the globe. The lasting performance of our products and the friendly technical advice, training, and services we offer mean our technical and commercial teams are equipped to work closely and support our customers and distributors every step of the way.

Uzin UTZ UK Ltd

Address:

2 Mitchell Court,
Central Park, Rugby,
Warwickshire, CV230UY

Telephone:

01788 530080

With over a 100 year experience, UZIN provides the UK's flooring professionals with ecological, innovative and high quality products and solutions. From new installations to renovation of all types of floor coverings. With smoothing compounds, adhesives and damp-proofing systems, the whole range comprises practical products and solutions for today's flooring contractors. We are committed to investments into research, product development and product safety. Our customers always come first and we are committed to providing flooring installers with the best support for their daily business. We work with customers in partnership, providing exceptional quality products and excellent technical service

Valtris Specialty Chemicals Ltd

Address:

Lankro Way,
Eccles, Manchester,
M30 0LX

Telephone:

01617 851111

Valtris is a global leader in specialty chemical additives and precursors, offering innovative solutions and products to customers around the world. With strong technical expertise and best-in-class formulation capabilities, we develop products that provide essential performance properties to plastics, coatings, adhesives and sealants, pharmaceuticals, flavour and fragrance, and personal care products. For more than 75 years, we have served as a trusted partner for customers by providing exceptional service and high-quality products. We are committed to making the best use of our resources by minimizing emissions, waste, and energy consumption. We develop value-added sustainable products that meet the long-term needs of our customers. For the adhesives and adhesives markets we can offer the Santicizer® plasticisers which have been used in multiple polymer systems due to their high degree of compatibility. Our Santicizer® phosphate plasticisers can offer excellent fire and smoke resistance performance. To meet the future needs of the circular economy we have a growing range of bio based options based on our 60 years of production experience.

Vidara UK Ltd

Address:

Unit 1 Everill Gate Business Park,
Everill Gate Lane, Barnsley,
South Yorkshire, S73 0FJ

Telephone:

01226 818318

Vidara UK Ltd are specialty chemical distributors with expertise in providing chemical solutions to the surface coatings, adhesives, construction and allied industries throughout the UK and Ireland. We also stock a wide range of material solutions for leather, textiles and carpet. As a member of a global chemicals company, our global buying strength ensures that products are always nearby at the best value. Our customers are typically producers of paints, varnishes, printing inks, adhesives and building products, from small local businesses to large multinational corporations. We also supply companies who manufacture a wider variety of surface coatings such as those used for textiles and leather. We pride ourselves in offering more than just chemical formulas and raw materials, providing local market insight and technical expertise during every stage of product development. Our in-depth knowledge of specialist chemicals and their applications enables us to provide tailored solutions for our customers' specific requirements. Our UK warehouse network has an exemplary logistics track record offering unparalleled stock levels and fast next day delivery. Our extensive UK stock is mainly held at a central warehouse in Barnsley, South Yorkshire, and we usually supply over 95% of goods from stock.

Vita Liquid Polymers

Address:

Harling Road,
Wythenshawe, Manchester,
Greater Manchester, M22 4SZ

Telephone:

01619 983226

VitaBond Adhesives is a division of Vita Liquid Polymers Limited, and part of The Vita Group. Our product range includes water based, solvent based, polyurethane and PVC plastisol adhesives. These are supplied to a wide range of industries including furniture, foam converting, laminating and automotive both in the UK and worldwide. VitaBond Adhesives are dedicated to innovative polymer science creating new ideas and products, constantly improving on what we already know. VitaBOND® is an extensive range of both water-based and solvent-based adhesives for use in a variety of product applications and specialist markets. Our entire range is carefully formulated to ensure all adhesives have the highest bonding capabilities, whilst also being safe and easy to use. Boasting low-toxicity and environmentally friendly properties, the VitaBond® range of water-based adhesives is a popular choice for industries that value sustainability whilst ensuring strong bonds with a wide range of substrates at all times. Our solvent-based adhesive products offer maximum bond strength and are typically used in applications where quick-drying and high resistance to water and chemicals are required. They have been specially formulated to adhere to foam, plastic, wood, vinyl and fabric, amongst a wealth of other substrates. VitaBond® solvent-based adhesives include non-flammable, toluene-free, chlorinated and non-chlorinated options to ensure a safe and long-lasting product every time. Whatever materials are being worked with – packaging, foams, textiles, laminates, roofing or other various substrates, our VitaBond® adhesives can be custom formulated to meet the end-user performance demands and application methods you require.

Wacker

Address:

2 Arlington Square,
Downshire Way,
Bracknell,
RG12 1WA

Telephone:

01344 401670

UK subsidiary of Wacker Chemie AG. Wacker Chemie AG is the largest manufacturer of silicones in Europe with all manufacturing sites accredited to ISO 9001 and ISO 14001. The ELASTOSIL® product range includes the full spectrum of silicone materials for all market sectors e.g. building and construction, rubber fabrication, consumer care, textile, paper, chemical, coatings, industrial sealing and bonding. For the Sealants industry Wacker offer raw materials as well as ready-compounded sealant in bulk, cartridges and foilpacks. In the GENIOSIL® range Wacker offer organofunctional silanes, prepolymers and "hybrid" sealants. WACKER POLYMERS is a leading producer of state-of-the-art binders and polymeric additives based on polyvinyl acetate and vinyl acetate copolymers. They are used in construction chemicals, paints, surface coatings, adhesives and nonwovens, and in fiber composites and polymeric materials based on renewable resources. Wacker also manufacture HDK® fumed silica – available in a range of hydrophilic and hydrophobic grades – which are used primarily for their thickening, thixotropic and reinforcing properties in the sealant, resin and surface coating industries.

Wallace Hind Selection LTD

Address:

The Old Vicarage,
1 Main Road, Duston,
Northampton,
NN5 6JB

**Telephone:**

01604 758857

Wallace Hind Selection is a retained recruitment consultancy providing leading services to major organisations and SMEs across the UK and Europe. Since our inception in 1992, we have significantly developed our recruitment services to cover a full range of job disciplines and market sectors, sourcing key talent for a diverse range of clients, from owner managed businesses through to some of the UK& Europe's most recognised FTSE 100 Brands. Our approach is structured, rigorous and comprehensive, one that consistently delivers. These approaches include traditional Headhunting, Executive Search and Talent Mapping to bespoke recruitment solutions. Partnering with you, we dedicate time and expertise to gain an in-depth understanding of your business and your specific needs before undertaking any campaign. This affiliation is a two way process giving you the opportunity to question a recruitment expert about your brief, the most appropriate way to recruit, candidate availability, remuneration and timescales.

We approach every campaign with the same values.

- 72% of our business is repeat or recommended.
- 87% of our business is retained.
- Where we are retained, we fill 19 out of every 20 jobs.

What we do really does make a difference. Due to the service levels we provide and the success rate of our process, many of our candidates become our clients. We are proud of our business and what we do.

Wessington Group Ltd

Address:

Davidson House, Forbury Square,
Reading, RG1 3EU

WESSINGTON GROUP LTD.

Telephone:

01189 000546

Wessington was established in 1992 in the United Kingdom and is a privately owned business. Since its foundation, the Company has also formed sister organisations in the USA (2003) and the Middle East (2007). Originally a distributor of speciality chemicals, our product range has grown to include formulated products, finished goods, ancilliary materials and equipment. Prime industries served are construction, textiles, rubber, sealants & coatings, insulated glass and water treatment.

We are a small and flexible company, looking to provide a tailored approach and service to both customers and suppliers. We aim to offer comprehensive technical understanding of our key products, with logistical support from stocks strategically located in the UK, UAE and USA. Wessington Group Ltd is a supplier of raw materials and formulation ingredients to the sealant, adhesive, coating, rubber/plastics and resin industries.

We are the European and Middle East distributor for the Toray range of THIOKOL LP liquid polysulfide polymers. We also offer manganese dioxide and sodium perborate cure pastes for use with THIOKOL LP. Sealants, adhesives and coatings based on THIOKOL LP are used throughout the world in the construction, insulated glazing, marine, automotive and aircraft industries. Other relevant product offerings include DOTP (DEHT), DOA, DICY, metallic stearates and calcium oxide.

We are a knowledgeable and flexible company, providing a tailored approach and service to customers and suppliers. We aim to offer comprehensive technical understanding of our key products, with logistical support from stocks strategically located in the UK, NL and UAE. Wessington Group Ltd is an ISO 9001 registered company and participates in the Chemical Business Association 'Responsible Care' programme. We are an active member of Trade Associations including BASA, BPF and the CBA.
